

ANNUAL REPORT 2022-23

The background of the entire page is a soft-focus photograph of several flowers. In the upper right, a large pink flower with many petals is prominent. Below it and to the left, there are other flowers in shades of pink and yellow, some in bloom and some as buds. The stems of the flowers are green and visible. The overall effect is a bright, natural, and pleasant aesthetic.

BACKGROUND OF THE ORGANISATION

Rural Action in Social Emancipation (RAISE) started in the year 2000 under the provisions of Andhra Pradesh Societies Registration Act XXI of 1860. The organization was formed with the co-operation of dedicated social workers and enthusiastic service minded group with a view to help the helpless rural poor community through various developmental activities. The birth of "RAISE" is a response indeed an emotional response to the problems of illiteracy, ignorance, ill health, malnutrition, unemployment and inadequate medical and educational facilities that were widely prevalent in Kadapa, Nellore, karnool and Guntur Districts of Andhrapradesh, India. Hence, the Organization formed with no profit motive and dedicated to solve the identified problems.

OUR CORE VALUES

Our commitment towards a better society drives us. RAISE's core values inform all of our work. They shape what we do and how we do it. They bind us to a collective vision and purpose.

Respect

RAISE act in a manner that reflects a true belief in and appreciation for the dignity and potential of all human beings. Gaining peoples' confidence and creating an environment of trust and openness is essential to our work.

Integrity

Maintaining social, ethical, and organisational norms; firmly adhering to codes of conduct and ethical principles are inherent to RAISE.

Commitment

Using appropriate interpersonal styles and techniques to gain acceptance of ideas or plans; modifying one's own behavior to accommodate tasks, situations, and individuals involved

SAVE GIRL CHILD, STOP GENDER DISCRIMINATION

(on going)

Our mission has always been to save girls' lives—to end female gendercide in our area. Girls in India are systemically under-valued and subjected to terrible injustice. We're committed to shedding light on this atrocity, combatting it, and caring for its survivors

We rescue girls. The aim of a “rescue” is to extricate a girl from a situation in which she is exploited, abused, or where her life is in potential danger. Actual or potential situations requiring a rescue may be cases of female foeticide, female infanticide, deadly neglect, abandonment, child labour, slavery, commercial sexual exploitation (trafficking), any form of trafficking (including

bonded labour), early child marriage, forced marriage, or similar unlawful activities.

Once a girl is rescued and placed in the Child Sponsorship Program, the goal will be to sponsor her, support her, and educate her on her value and the perils of female gendercide, through her graduation from college

We RAISE organization currently working to save girl child from Child marriage, Child labour, Gender discrimination and Feticide in the rural areas. In 2019 we have started this program , at present we have rescued 150 girls and supporting them with Care and Education.

Safe drinking water and sewage system for poor

Bore well installed and connected to the storage water tank from that by using underground pipe system water is supplied to each house hold, drainage system is constructed that passes through the front of each house hold, water management committee and sewage management committee is formed to look after the constructed systems

Each member in the village has suffered with out proper drinking water and drainage system. With this they got the safe drinking water facilities and drainage facility. with the safe drinking water the health benefits were increased got healthy life. As the water supplied directly to the each house hold, the period of time they spend for the collection of the water decreased and they kept time on doing some more hard work to earn the money, previously the parents used to send the daughter and sons to collect the water which eventually making it late in going to school. But this make each life easy and comfortable. Previously the drainage used to be the serious issue, as it gets accumulated in front of the uses, people especially the children used to get effected with the diseases like Malaria and typhoid. Rainy season used to be the challenging. But now there is a way for the waste water. Now it wont stay. Because of the sewage system and the drinking water system the number of the children attending to the school for the education is increased, the percentage of the school attendance got improved. Children stands in the first position (indirectly) to have good education. As Education is the only one which changes the fate of the poor. The level of the environmental pollution that comes with the drainage system got decreased. Finally the level of water born diseases got decreased.

VILLAGE PEOPLE ARE SO HAPPY
THAT THEY HAVE SAFE DRINKING
WATER

Finally meeting was conducted for the opening of water tank and drainage system

Testimonies

Mariyamma she explained that “ I am having four children. I used to suffer a lot to collect the water for my family. Sometimes I used stop my daughter from going to school with the only reason that she must collect the water and its getting late for me to go for my labour work. My children used to fall sick very frequently because of lack of sewage. Now I am happy that they are healthy and children going to school with out fail.”

THANK YOU
